the
Difference

25 years

▶ ABOUT US

ASE, established in 1992 in Istanbul, Turkey, is **an international express courier and logistics solutions provider**. Using its strategic location, historic and cultural ties to the Caucasus and Central Asia, we opened up our first offices abroad in the then newly independent C.I.S. countries. In a short time we came to be known as a regional network with local solutions, expertise, and a pioneer in door-to door services. This experience since helped ASE become an expert on providing a variety of express logistics solutions in developing countries and **delivering results in the toughest geographies around the world**.

Apart from being a regional network, ASE is also the regional representative of the Japanese network OCS - Overseas Courier Service since 1998, which gives us a strong hand in the Far East market. Seeing the future of commerce, we have also invested in B2C and B2B cross border e-commerce delivery solutions and currently providing these services from and to Turkey, Azerbaijan and Kazakhstan for various online stores.

Today, ASE delivers the difference in more than 12 locations in 9 countries and many of the world's largest multinational companies, government institutions and SMEs use our services to manage their supply chains and everyday logistical needs.
